AREA 21 ACRES

# GREENBUSH POND

Jim Pond Twp., Franklin County  
U.S.G.S. Tim Mountain, Maine (7½')

## Fishes

Brook trout  
Yellow perch  
Minnows  
Golden shiner  
Common shiner

Redbelly dace  
Creek chub  
Longnose sucker  
White sucker  
Hornpout (bullhead)

## Physical Characteristics

Area - 21 acres

Maximum depth - 22 feet

Principal fisheries: Brook trout, baitfish

Temperatures:

Surface - 71°F

21 feet - 49°F

Greenbush Pond is located north of Greenbush Mountain. The pond has no major inlets, but a short outlet flows east into the North Branch of the Dead River. The pond's shoreline is lightly developed.

Water quality in Greenbush Pond is marginal for coldwater gamefish. Brook trout enter the pond seasonally from its outlet, but poor water conditions in the summer and a lack of spawning habitat allow for only a very limited fishery. Trout growth is generally poor with heavy competition from other fish species. The pond is not stocked.

Greenbush Pond is accessible off Route 27. The pond is open to fishing under general law in both the summer and winter months.

Surveyed - August, 1958
